# NATIONAL EUROPASS CENTRES

♥ Europass is active in more than 30 countries.

♥ A National Europass Centre (NEC) **coordinates all activities related to Europass in every country that participates in Europass.** It is **the first point of contact** for any person or organisation interested in using or learning more about Europass.

♥ While each NEC operates independently, tailoring its activities to the specific needs and context of its country, they are all bound by a common goal: **promoting transparency and understanding of skills and qualifications across Europe.**
