Introduction

The Statistical Annex to the 2021 Erasmus+ Annual Report presents a concise overview of the Erasmus+ programme's results in 2021. The main purpose is to help readers have a better grasp of the main achievements of the programme through the provision of key data. In this context, detailed statistics illustrate how Erasmus+ was implemented in 2021 through projects and mobility activities in the fields of education, training, youth, and sport. Data on budget, number of projects, participants, and organisations, as well as on the cross-cutting priorities of Erasmus+ (e.g., inclusion, environment, etc.) are presented therein.

This annex contains main three sections:

- **Programme budget:** the source of the data is the 2021 Annual Work Programme of Erasmus+¹;
- **Projects** and related data (projects counts, grants, organisations involved², forecasted participants, contribution to priorities). The projects reported in this section are those related to calls for proposals supported by the 2021 programme budget (Call year 2021³). Calls managed by the Executive Agency (EACEA) and the National Agencies are included;
- **Mobility activities details:** total count of participants starting a mobility period between 01/01/2021 and 31/12/2021.

In principle, data related to activities and priorities (e.g., grant amounts, number of projects, organisations, expected participants, etc.) has been calculated on the basis of 2021 as call year. Nonetheless, for the purpose of the report, data related to mobility of participants from a given country to another one has been calculated on the basis of 2021 as calendar year⁴.

¹ Amendment of the 2021 annual work programme ([awp-C-2021-7336-14-10-2021-amendment_en.pdf](#))

² Data was extracted on 18 November 2022. An organisation can participate in several projects under the different actions of the programme.

³ Call year is the year when a call for proposals is published. Project proposals submitted and selected for funding in the context of a call for proposals are usually implemented in the years following the call year. In that sense, the term “call year” is linked to the term “call for proposals”. A call for proposals is an invitation published by or on behalf of the Commission to present, within a given deadline, a proposal for action that corresponds to the objectives pursued and meets the required conditions. Calls for proposals are published in the Official Journal of the European Union (C series) and/or on relevant websites of the Commission, National or Executive Agency.

⁴ Mobility activities started between 01/01/2021 and 31/12/2021.

GLOSSARY OF TERMS

Action	A strand or measure of the Erasmus+ Programme. Examples of Actions are: Strategic Partnerships in the field of education, training and youth, Erasmus Mundus Joint Master Degrees, Sectors Skills Alliances, etc.
Activity	A set of tasks carried out as part of a project. An activity can be of different types (mobility activities, cooperation activities, etc.). In the framework of Jean Monnet, an Activity is equivalent to an Action (see definition above). A project can consist of several activities.
Mobility	Moving physically to a country other than the country of residence, in order to undertake study, training or non-formal or informal learning; it may take the form of traineeships, apprenticeships, youth exchanges, volunteering, teaching or participation in a professional development activity, and may include preparatory activities, such as training in the host language, as well as sending, receiving and follow-up activities. In the context of this report, key action 1 reported mobility periods count is based on realised mobilities linked to projects under the reference call year (non-eligible mobilities are not taken into account).
Organisations	A participating organisation is any organisation or informal group of young people involved in the implementation of an Erasmus+ project. Depending on their role in the project, participating organisations can be applicants or partners (also defined as co-applicants, if they are identified at time of submission of the grant application). If the project is granted, applicants become beneficiaries and partners may become co-beneficiaries if the project is financed through a multi-beneficiary grant.
Participant	In the context of Erasmus+ participants are considered those individuals fully involved in a project and, in some cases, receiving part of the European Union grant intended to cover their costs of participation (notably travel and subsistence). Under certain Actions of the Programme (i.e. Strategic Partnerships) a distinction is hence to be made between this category of participants (direct participants) and other individuals indirectly involved in the project (e.g. target groups). Participants count is an estimated forecast calculated once a project has been contracted. Not to be confused with Mobility.
Project	A coherent set of activities which are organised in order to achieve defined objectives and results. Please note that an organisation may participate in several projects.

GETTING IN TOUCH WITH THE EU

In person

All over the European Union there are hundreds of Europe Direct centres. You can find the address of the centre nearest you online (european-union.europa.eu/contact-eu/meet-us_en).
